GEZE Cockpit VISU software licence

Building automation software for the operation and visualisation of doors, windows and safety technology

The screenshot displays the GEZE Cockpit VISU software interface. At the top, there is a navigation bar with 'GEZE COCKPIT', 'BASIC', 'VISU', and 'VISU+' options. The main area shows a floor plan of a 'Demo Building' with various rooms labeled: 'Küche', 'Büro', 'Flur/Treppe', 'WC Herren', 'WC Damen', and 'Begrüßung'. A red box highlights a door device (RWS) on the floor plan, and a grey box shows its status (Verriegelt/Entriegelt). Below the floor plan is a table with the following data:

Typ	Gerät	Gerätename	Vorheriger Zustand	Aktueller Zustand	Zeitpunkt	Standort	Benutzer
	RWS	TZ220	Verriegelt	Entriegelt	12.02.2020 16:05:23	Demo Building All Device...	admin
	RWS	TZ220	Entriegelt	Verriegelt	12.02.2020 16:05:19	Demo Building All Device...	admin
	RWS	TZ220	Verriegelt	Entriegelt	12.02.2020 16:04:31	Demo Building All Device...	admin

Product features

- Browser-based system with modular and flexible authorisation concept
- Simple and intuitive interface set-up and configuration
- Graphic visualisation of device status and operation
- Scene control for controlling multiple devices at the same time
- Time-controlled automatic triggering of scenes
- Event log for tracking processes
- Location option for devices on a building plan
- Password-protected full screen mode for operation on room operation panels

Application Areas

- Visualisation, operation and monitoring of connected GEZE products
- Connection of emergency exit terminals, automatic doors, smoke and heat extraction ventilation flaps, automatic window drives
